

ANANNYA CHAMAT

anannyachamat@gmail.com | [LinkedIn](#) | (682) 414-3118 | Arlington, Texas

SKILLS

- **Programming & Data Analysis:** Python (pandas, NumPy, scikit-learn), SQL, JavaScript, HTML, CSS, Advanced Excel, OpenCV, Matplotlib, Seaborn.
- **Tools & Platforms:** Power BI, Tableau, Flask, Django, AWS, Google Cloud, Git, JIRA, MySQL, PostgreSQL, MongoDB, Google BigQuery, Hadoop, Spark, Oracle, Windows/Linux.
- **Analytical:** KPI design, dashboard storytelling, requirements gathering, stakeholder interviews, process mapping, documentation, experiment design.

EXPERIENCE

- **Aryabhatta Research Institute of Observational Sciences (ARIES)** Jun 2023 – Aug 2023
Data Analyst Intern (SRF' 23) Nainital, Uttarakhand
 - Conducted stakeholder interviews & process mapping to optimize workflows, improving operational efficiency by **15%**.
 - Built **KPI dashboards** (Python, SQL) for real-time monitoring; authored process documentation to streamline cross-team collaboration.
 - Designed a maintenance-tracking framework via data analysis, reducing downtime by **20%**.
- **TeleNetworks Pvt. Ltd.** Jan 2022 – Feb 2022
Cyber Security Intern Mumbai, India
 - Analyzed **200+** online transactions to detect risk patterns; recommended mitigations that lowered vulnerabilities by **10%**.
 - Collaborated with cross-functional teams to translate findings into actionable controls and reporting.

PROJECTS

- **Titanic Survival Analysis** | *Python, Jupyter Notebook, Model Evaluation, Feature Engineering.* May 2025
 - Conducted **EDA**, identifying key variables (Age, Gender, Class) that influence survival rates.
 - Engineered features (Family Size, Cabin Info) that boosted model performance by **10%**.
 - Achieved **82% accuracy** with Logistic Regression and Random Forest, optimized using AUC and Precision metrics.
- **Airbnb Clustering Analysis** | *Python, SQL, PCA, Data Visualization, Market Segmentation.* Mar 2025
 - Applied K-means clustering to segment **5,000+** listings based on price, reviews, and room type.
 - Used **PCA** to reduce dimensionality and enhance clustering results.
 - Provided actionable **pricing insights**, increasing luxury listing revenue by **15%**.
- **Inventory Management Tool for Forever 21** | *Python, SQL, Excel, Power BI* Nov 2024
 - Built a real-time inventory monitoring tool, cutting stockouts by **25%** and improving turnover.
 - Applied predictive analytics to sales history, boosting restocking accuracy by **30%**.
 - Delivered interactive dashboards enabling faster, data-driven merchandise decisions.

EDUCATION

- **The University of Texas at Arlington | M.S. in Information Systems** Expected May 2026
(GPA: 3.55 / 4.00) Arlington, Texas
 - Relevant Coursework: Advanced Analytics, Data Mining, Data Warehouse, Business Intelligence, Cloud Computing, Python Programming.
- **University of Mumbai | B.E. in Information Technology** Jun 2024
(GPA: 8.41/10.00) Mumbai, Maharashtra
 - Relevant Coursework: Database Management, Data Structures, Big Data, Machine Learning, Software Engineering.

CERTIFICATIONS

- Crash Course on Python — Google
- Introduction to Business Analytics — Tableau Learning Partner
- Google Data Analytics Certificate — Google (*ongoing*)

INTERESTS

Exploring new gadgets, Badminton, Designing mood boards, logos and Data storytelling.
